

Steps for Downloading MagneMotion Firmware/Software

1. From MagneMotion's website www.magnemotion.com scroll down to the Resource section of the home page and click on **Product Resources**
2. Click on **Software Downloads**
3. Click on the **Firmware & Software Download** link
4. You will be directed to Rockwell Automation's Download Center
5. Under **Find Downloads** enter **MagneMotion** in the first Search field and choose **Motion Control** in the category field
6. Click on the appropriate package, then click **Download**.
7. You will then be asked to create a Rockwell User Profile. When the form is complete, click **Continue**.

Please note, you will not receive an on screen response. You will receive an email from RA Tech Connect confirming your accounts is active.

You will now be able to download the firmware/software package.
